

SOIL PIPE CUTTERS

Features

- Great for gray water applications.
- Soil Pipe Cutters apply **chain pressure** to snap the pipe.
- REED innovations have improved upon the original.
- **Captured screw** in SC49 assures proper alignment.

[1] See Maximum Pipe Capacity Information

[2] 1/2" Male Ratchet Wrench (#40208) included with SC49 cutters

Maximum Pipe Capacities (determined by maximum pressure applied):

- Extra heavy cast iron soil pipe 2-4" (62-125 mm)
- Service weight cast iron soil pipe 2-8" (62-212 mm)
- Concrete pipe 4-6" (125-160 mm)
- No-Hub® cast iron soil pipe 1 1/2"-8" (38-212 mm)
- Clay pipe 2-15" (62-403 mm)

Extension chains available to increase capacity of smaller cutters.

MORE INFORMATION

The fastest way to cut cast iron soil pipe, clay pipe, and small diameter concrete pipe is with a chain soil pipe cutter. Great for gray water applications! REED has improved the original design by providing stronger jaws and more durable adjusting screws which are interchangeable with the original tools. REED soil pipe cutters are available in a single stroke SC59 model and a ratcheting SC49 model for close quarter work. Multiple use 1/2" ratchet wrench ships with SC49 models. No-Hub® Roller Kit is standard on all models.

For cutting ductile iron pipe, REED recommends Hinged Cutters™ or Low Clearance Rotary™ cutters. To cut cement lined ductile or ceramic lined ductile, use REED Universal Pipe Cutter (UPC) with the blade for cast iron and ductile iron pipe.

NOTE: Jaw sets and cutter chains are interchangeable with Wheeler-Rex® models. Pressure Screw Assembly available offering heavy duty parts for current and prior REED models, along with Wheeler-Rex® 490. Order #98046 for REED SC49 models and Wheeler-Rex® 490 series; use #98047 for REED SC59 models.

✓ WHY REED?

First introduced by REED, the captured screw makes the SC49 close-quarter soil pipe cutters both easy to use and less costly. The screw does not have to be manipulated into place which reduces screw and cutter breakage.
